

# FFF Carbon

*Energy and high-tech materials of the future*

*Itumeleng Kgomo / CEO EPCM Global  
Engineering (Pty) Ltd*

**ONLINE WEBINAR**

**24 Nov 2023 1pm - 2pm**

## **Multi-pollutant Emission Technology- The solution**

### **Webinar Summary:**

The webinar will present how multiple pollutants from coal-fired power generation can be captured and converted into valuable commodities thereby counteracting the negative use of coal while contributing to the nation's GDP and circular economy.

### **Speaker Biography:**

Itumeleng Kgomo is the Chief Executive Officer of EPCM Global, an engineering and consulting firm.

He currently sits on numerous boards in Support of National Growth Aspirations and sharing technologies to close numerous growth gaps in the SADEC region.

Starting his career as a hotelier working for numerous local and Global Chains, he left tourism to run a Specialist Development firm.
